When you download this powerful song at iTunes or Amazon MP3, you'll be helping Liberty Institute continue the expensive legal battle to protect our memorials.

Sadly, there are those trying to tear down our national memorials that contain religious imagery (especially memorials in the shape of a cross). A cross does not establish a national religion. For many, a cross symbolizes selfless service and sacrifice.

Our veterans have sacrificed a lot for our country. **THEY DESERVE TO BE HONORED AND REMEMBERED**, not to have their memorials torn down. Liberty Institute stands with our veterans to preserve these precious monuments.

**HELP** us save our memorials, and the sacred memories of those who fought to keep America free, by downloading this timely song today and sharing this important message with your friends on Facebook, Twitter, etc.

**OUR VETERANS NEED YOU!**  
**1 MILLION DOWNLOADS! FIGHT WITH US!**

Thank you!
